

Meet **ABRAHAM RAMAN**, who was working in Bangalore as an accountant in an office, when in 1973 during a visit to this coastal town, he fell in love with the shells found in Kanyakumari. It got him thinking about making beautiful decorative items and designs on them. A self taught craft, experience made him learn the nuances and got him to create decorative designs and he started marketing the same at stores that appreciated this craft.

During the 45 years of his tryst with this craft, he has attended many exhibitions all over the country and also given training for adults and children in schools. He is also the recipient of the Tamilnadu state Award and Living Treasure Award.
