

## Meet your Artisan Tirupathi

"I was nine years old when I decided to follow my Father's footsteps" with pride says Tirupathi, a 3rd generation soft stone craftsman from Namakkal. His keen interest in this craft and talent, got him to join Kalakshetra, where he managed to hone his skills further. This exposure, also made him understand how sticking to age old designs would eventually dwindle sales and the need to come up with new designs to sustain the craft and the craftsman. He is open to requests asking for unique designs & customisation. With happiness he shares that his son who is in school, accompanies him to dakshinchithra on Sundays and learns the craft from him. It gives him great assurance that the craft will live on through his son for generations to come.
